THE PROBLEM

My Anime List users are isolated in creating their own anime lists, which is a lonely reality.

WHY NOW?

The popularity of Anime is only growing, especially out of the pandemic. Let's jump on this opportunity.

Pitch

SOLUTION

Our Anime List connects Anime watchers with current and new friends to create community.

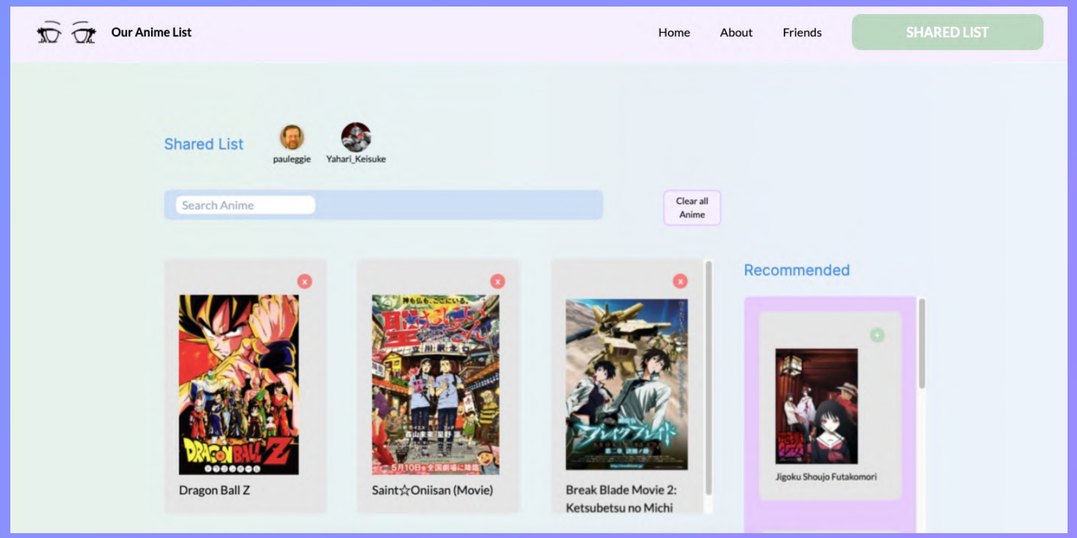
Collaborative Lists

- ***Displays dynamic data***
  - of animes on live collaborative list on Shared List page.
- ***Uploads data***
  - from client to server as user adds anime to shared list.
- ***Meaningfully search***
  - through data as user finds new anime to add and new lists to join.

Friends Page

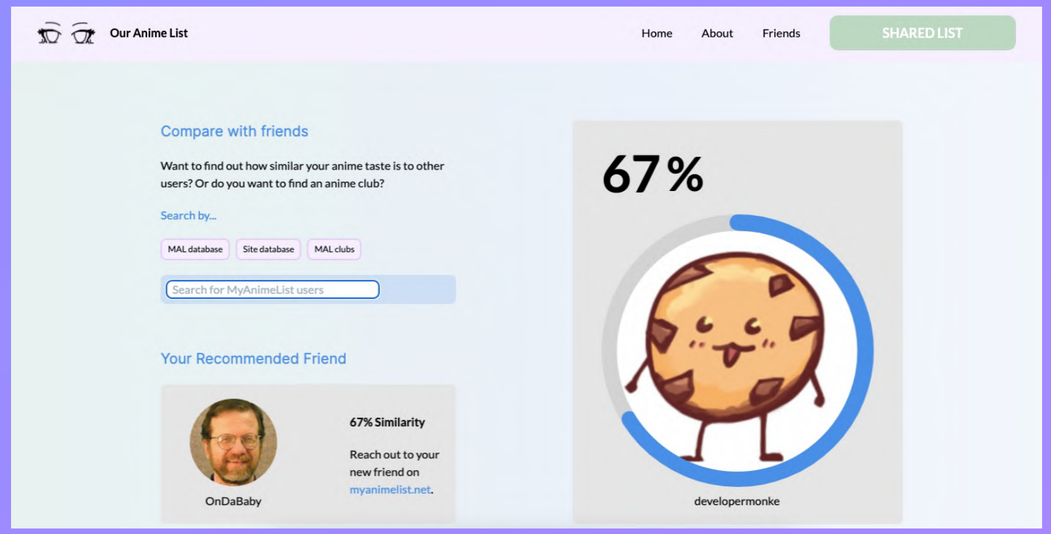
- ***Search*** for a user from My Anime List or local site database to compare with via a similarity score.
- ***Search*** for anime clubs from My Anime List.
- ***Find*** a recommended friend with similar interests.

PRODUCT / FEATURE OVERVIEW



Shared List

Add to anime list by search or by recommended anime. Join new shared anime lists.



Friends Page

Compare similarity scores with friends and get a new recommended friend.
